

TECHNICAL DATA SHEET

YIELD – Cleaner – Deodoriser – Disinfectant – Environmental control agent

A new generation hard surface treatment

FEATURES:

- Highly efficient cleaner
- Strong disinfectant
- Effective deodoriser
- Insect controller
- Safe to use

BENEFITS:

- Yields glycol solvent technology ensures powerful hard surface cleaning action. Particularly designed toward the solubilisation of oily soils. An aggressive cleaner that is as strong at the end of the job as it was at the beginning, covering a wide range of soils.
- Powerful, food grade disinfectant actives have been added to Yield to create a complete food grade disinfectant cleaner. AQIS approved for the general cleaning of food preparation areas.
- Takes advantage of powerful deodorising properties of Australian native essential oils and provides efficient, long lasting and natural deodorising effects to all treated surfaces. The fresh fragrance of the Australian bush lingers long after use.
- Through the use of our exclusive Australian native oil blend, Yield provides an environment that is repellent and toxic to crawling insect pests. Provides an effective barrier against cockroaches, ants, fleas and beetles but contains no synthetic insecticides.
- Gentle enough to be used on any hard surface. Contains no caustic compounds, no petroleum solvents, no soaps, no abrasives, no acids. Non-hazardous and safe to use under all circumstances.

APPLICATIONS:

- Ideal as a general, neutral hand scrub for all surfaces
- A viable alternative to cheap detergent cleaners
- Excellent for hospital and institutional use as a neutral scrub/re-odorant

Exceptional for use by municipal authorities for odour, bacterial and insect control in:

- Public amenity areas
- Refuse trucks and dump bins
- Garbage areas, grease traps and drains

RECOMMENDED FOR:

- Shower and washroom areas
- Food and beverage manufacturers
- Kitchens and food preparation areas
- Woodwork and furniture cleaning

Yield is available in:

PRODUCT SIZE	5L	20L	205L
PRODUCT CODE	300-0005-98	300-0020-98	300-0205-98

DIRECTIONS:

Yield may be mopped, swabbed or sprayed. Concentration will depend on the type of degree of contamination.

Disinfectant: May be diluted with up to 20 parts water

General Cleaning and Deodorising: May be diluted with 10 to 50 parts water

Insect Control: Areas should be pre-cleaned with Yield or other efficient cleaner. Yield should be diluted with 10 parts water and coarse sprayed onto all areas to be treated. For best results, the Yield solution should be left on the treated surface to provide continuing insect deterrent effect.

SAFETY INFORMATION:

- Keep out of reach of children
- Avoid contact with skin & eyes
- Harmful if swallowed
- Read Material Safety Data Sheet before use
