

INDUSTRIAL – NON-SOLVENT - HAND CLEANER – CARE LOTION

Formulated to remove most stubborn soils from hands and other skin surfaces without the use of harsh solvent, abrasives or alkalies.

Description - A pale green pearlescent lotion.

FEATURES

HAN-D dissolves most grease - carbon - dirt and grime quickly and thoroughly.

HAN-D is mild enough for all over body cleaning during showering.

HAN-D is safe to use - no solvents - abrasives or heavy alkali salts. Non-irritating - does not produce de-fatting of skin.

HAN-D contains coconut oil - helps condition skin. Leaves skin comfortably soft and clean.

HAN-D is fortified with a powerful germicide ingredient that destroys bacteria in cuts and abrasions and reduces the incidence of dermatitis. Because of its mildness and germicidal properties.

HAN-D is recommended for problem skins and those prone to dermatitis infection.

HAN-D leaves a monomolecular layer of a non-greasy conditioning agent - forms a barrier against drying out and re-soiling - skin is left conditioned and protected.

DIRECTION FOR USE:

Rub HAN-D into wet or dry hands. HAN-D may be diluted with water during this process to facilitate penetration of soils. Rinse clean or wipe with clean cloth.

SPECIAL NOTE: As HAN-D contains no solvents - it is not recommended for the removal of dried on ink or paint. Hammersley's ULTRA KLENZ is preferred. If further emollient treatment is required, hands may be rewashed with HAN-D.
