

# TECHNICAL DATA SHEET

## Master Touch - Stainless Steel & Timber Polish

*Formulated to clean, polish and protect – laminated, stainless steel and natural wood furniture.*

### FEATURES:

- Highly efficient formula
- Convenient
- Simple to use
- Natural conditioning effect
- Economical
- Quality finish

### BENEFITS:

- Full of natural, deep penetrating oils and silicone to feed wood surfaces and keep them looking new, year after year.
- Effective on light or dark timber surfaces- laminated, solid or veneer. Enamel, vinyl, and leather. Countertops and metal appliances.
- Super siliconising effect allows for easy spreading and easier buffing. Leaves a deep protective lustre.
- Luxurious, penetrating, conditioning emulsion that polishes and nourishes as it cleans leaving a deep, natural, 'cared for' lustre.
- Just a small spray down the centre of any area to be treated is easily spread out to cover a wide area.
- Dirt won't stick – dust won't settle – smudges wipe away.

### APPLICATIONS:

- All stainless steel surfaces including furniture, appliances and equipment.
- Timber furniture, laminated, solid and veneer surfaces.
- Auto interiors and chrome fittings. Vinyl or leather seats.

### DIRECTIONS:

1. Spray small amount onto area to be treated and spread evenly. Buff to high lustre with clean, dry cloth.
2. For problem areas, a small amount of Master Touch may be put directly onto a cloth and rubbed directly into the surface.

### SAFETY INFORMATION:

- Read Material Safety Data Sheet before use.
