

# TECHNICAL DATA SHEET

## NS22 - Dewatering Safety Solvent

*Formulated for the fast and safe removal of water from electrical equipment and components.*

### FEATURES:

- Dewaterers
- Decontaminates
- Dries completely
- Safe
- Saves downtime

### BENEFITS:

- Penetrates water and quickly displaces.
- Powerful solvent action dissolves and flushes away grease, oils, gums, dirt and dust.
- Evaporates to a non residual, completely dry surface, leaving no oily residues to attract dirt or moisture.
- Non conductive and non-flammable – machinery can be started as soon as electrical properties are restored.
- No dismantling – restores electrical properties fast. Flooded motors can be restarted in minutes.

### APPLICATIONS:

- Motors and windings
- Power generators, transformers, circuit breakers, relay controls, rectifiers, terminals, fuse and junction boxes.
- Ignition systems, switches and switch gear, electronic equipment and components and tools.

### DIRECTIONS:

1. Should be sprayed liberally into the affected areas so that all surfaces are saturated.
2. In most cases the equipment will be restored to operating standards within minutes.
3. Can be used as an immersion bath solution where desired.

### SAFETY INFORMATION:

- Read Material Safety Data Sheet before use.
- Keep out of reach of children.
- Avoid contact with skin and eyes.
- Harmful if swallowed.
- Avoid breathing. Use only outdoors or in a well-ventilated area.
