

TECHNICAL DATA SHEET

PENETRAX - Penetrating Lubricant & Moisture Dispersant

Multi-Purpose Lubricant.

FEATURES:

- Penetrant
- Lubrication
- Dispersant
- Preventative
- Protectant

BENEFITS:

- Effectively loosens seized parts and prevents binding. Very low surface tension – seeps into all cracks and crevices. Penetrates faster and deeper.
- Lubricates all moving parts.
- Displaces moisture from all electrical components – preventing malfunctions.
- Protects metal components from rust and corrosion.
- Protects aluminium, glass and other fixtures from cement and acid stains during construction.

APPLICATIONS:

- Lubricates all moving parts.
- Any seized nuts and bolts.
- Protects all metal surfaces from rust.
- Protect aluminium, glass and other fixtures from cement and acid stains during construction.
- Displace moisture from electrical components, preventing malfunction.

DIRECTIONS:

1. To penetrate and lubricate seized parts – Spray on affected area, allow to soak.
2. To disperse moisture – Spray liberally and allow to flow to the lowest point.
3. To protect aluminium, glass, etc from cement and plaster burns – Spray directly onto the surface. After work is completed wash clean with a suitable detergent.

SAFETY INFORMATION:

- Keep out of reach of children.
- Avoid contact with skin and eyes.
- Harmful if swallowed.
- Use with adequate ventilation.
- Read Material Safety Data Sheet before use.
