

TECHNICAL DATA SHEET

PHOSPHEX - Fibreglass & Stainless Steel Cleaner-Destainer

Formulated to speedily remove acid sensitive contaminations and stains from stainless steel, fibreglass and painted surfaces in marine and industrial environments.

FEATURES:

- Fast action
- Easy to use
- Concentrated
- Versatile

BENEFITS:

- Works speedily by chemically reacting with all acid sensitive stains.
- No hard scrubbing required. The chemical action is self generating and immediately evident by the very quick disappearance of the stain.
- Can be diluted up to 10 parts water and still provide a powerful cleaning effect.
- PHOSPHEX is as efficient in removing inorganic stains such as rust as it is in removing organic stains such as marine algae and watermarks.

APPLICATIONS:

- Marinas – very effectively cleans, descales and destains hulls.
- Industry – destains paintwork, brickwork and rolling stock.
- Rail – destains freight carriages, stainless steel and aluminium.
- Road Transport – big rig cleaning and destaining of coal dust, carbon and oxidation.

DIRECTIONS:

1. PHOSPHEX should be used by swabbing or painting the product on to the surface to be treated.
2. There is no need to scrub heavily; a light agitation is all that is required.
3. The correct concentration should be determined by experimentation but for normal maintenance should be between 1 in 4 to 1 in 6 parts water.
4. Always add PHOSPHEX to the water to avoid splashing.

SAFETY INFORMATION:

- Keep out of reach of children.
- Avoid contact with skin and eyes.
- Harmful if swallowed.
- Read Material Safety Data Sheet before use.

PHOSPHEX is available in:

PRODUCT SIZE	5L	20L	205L
