

# TECHNICAL DATA SHEET

## DISH GLEAM - Machine Washing Powder

*Formulated for the efficient cleaning of dishes, cutlery and glassware in machine dishwashers.*

### FEATURES:

- Highest cleaning power
- Complete cleaner
- Leaves no stains or streaks
- Sanitising
- Better hard water tolerance
- No build up or blockages

### BENEFITS:

- Is a one hundred percent active cleaning powder, carefully balanced to ensure maximum efficiency.
- Incorporates a non-foaming wetting agent to permit faster penetration, soil removal and complete rinsing.
- Eliminates the unsightly staining on dishware and ends time consuming hand removal. Due to its in-built oxidising agent, food stains are removed and will not re-appear while its use is continued.
- Contains a powerful chlorine sanitising agent which will completely sterilise utensils during the cleaning cycle and not permit the transference of bacteria.
- Efficiency is unaffected by hard water, giving one hundred percent performance in all conditions.
- Ensures a thoroughly clean and sterile machine. Soap scum, which causes blocked jets and objectionable odours, will not form while DISH GLEAM is being used.

### APPLICATIONS:

- Commercial and home dishwashing machines.

### DIRECTIONS:

Spotlessly clean dishes can be obtained with concentrations as low as 3gm of DISH GLEAM per litre of water. To maintain this concentration in the detergent tank, 60gm should be used as an initial charge and 10gm added each wash load.

The following suggestions will greatly assist the function and economy of DISH GLEAM.

1. Scrape solid food particles from plate.
2. Wash dishes as soon as possible after use.
3. Maintain water temperature in detergent tank at 60°C minimum.
4. MOST IMPORTANT – Make sure that the dishwashing detergent in your machine is DISH GLEAM.

### SAFETY INFORMATION:

- Keep out of reach of children.
- Avoid contact with eyes.
- Read Material Safety Data Sheet before use.

### Dish Gleam is available in:

PRODUCT SIZE	2kg Bag	9kg Bag	20kg Bucket	25kg Bucket
