

TECHNICAL DATA SHEET

Hibitec – Engine Coolant

Scale & Corrosion Inhibitor for Engine Cooling Systems

FEATURES:

- Protection
- Scale inhibiting
- Heavy duty
- Preventative
- Versatile
- Safe
- Low maintenance

BENEFITS:

- Protects all metals from corrosion with a monomolecular film barrier. Unique vapourising effect protects systems from cavitation corrosion.
- Prevents scale from forming – even in hardest water conditions.
- Maintains effectiveness under high pressure and heat conditions. Keeps cooling systems at peak efficiency.
- Effectively suspends all solid matter – won't allow build up of sediment in capillary areas where water flow is minimal.
- Suitable for both petrol and diesel motors. Compatible with anti-freeze solutions.
- Non-toxic, non-flammable, biodegradable. Safe to use in engines with aluminium and alloy components.
- Fast and easy to use liquid concentrate.

APPLICATIONS:

- Any cooling systems.
- Trucks, buses, trains, earthmoving and mining equipment.
- Car fleets or stationary motors.

DIRECTIONS:

1. Dilute at a rate of 20ml/L of water to provide complete protection.
2. Effectiveness continues long after normal products break down.

SAFETY INFORMATION:

- Read Material Safety Data Sheet before use.
- Avoid contact with skin and eyes.
- Harmful if swallowed.

Hibitec is available in:

PRODUCT SIZE	5L	20L	205L	1,000L
PRODUCT CODE	302-0005-32	302-0020-32	302-0205-32	302-1000-32
