**Section 5 - Fire Fighting Measures**

Flammable Liquid

**Suitable Extinguishing Equipment**

Foam, fine water spray or fog. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only. Do NOT use water in a jet. Do not discharge extinguishing waters into the aquatic environment.

**Special Protective Equipment and Precautions for Fire Fighters**

When fighting fires involving significant quantities of this product, wear a splash suit complete with self-contained breathing apparatus.

**Specific hazards arising from the chemical:**

Toxic and/or irritating fumes including carbon monoxide and carbon dioxide may be emitted. The vapour is heavier than air, spreads along the ground and distant ignition is possible.

Aerosols cans may explode at temperatures above 50°C

**Hazchem Code:** 3YE**Section 6 - Accidental Release Measures****Personal precautions, protective equipment and emergency procedures**

Remove all ignition sources. Personal protective equipment should be worn when cleaning up spills. Restrict access to area until completion of cleanup.

**Methods and Materials for containment and cleaning up****SAFETY DATA SHEET**

This revision issued: November 2022

Contain spill with absorbent material, such as sand, vermiculite or other inert material. Dispose of spilled material according to local regulations. Do not flush away residues with water. Allow residues to evaporate or soak up with an appropriate adsorbent material and dispose of safely.

**Environmental precautions**

Prevent spill entering sewers or waterways.
