### Section 4 - First Aid Measures

<b>Eye Contact</b>	Hold eyelids apart and flush the eye continuously with running. If irritation occurs seek medical attention.
<b>Skin Contact</b>	Remove contaminated clothing and wash skin thoroughly with soap and water. If irritation occurs seek medical advice.
<b>Inhalation</b>	Remove patient to fresh air avoid becoming a casualty. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.
<b>If Swallowed</b>	Do NOT induce vomiting. Rinse mouth with water. Seek immediate medical attention. If vomiting occurs spontaneously, lean patient forward or place on left side (head-down position if possible) to maintain open airway and prevent aspiration. Keep victim calm and warm. For advice, contact a Poisons Information Centre (Phone 131126) or a doctor.
<b>Advice to Doctor</b>	Treat symptomatically. Dermatitis may result from prolonged or repeated exposure. Potential for chemical pneumonitis.

### Section 5 - Fire Fighting Measures

Flammable Liquid

**Suitable Extinguishing Equipment**

Foam, water spray or fog. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only. Do NOT use water in a jet. Do not discharge extinguishing waters into the aquatic environment.

**Special Protective Equipment and Precautions for Fire Fighters**

When fighting fires involving significant quantities of this product, wear a splash suit complete with self-contained breathing apparatus.

**Specific hazards arising from the chemical:**

Toxic and/or irritating fumes including carbon monoxide and carbon dioxide may be emitted. The vapour is heavier than air, spreads along the ground and distant ignition is possible.

**Hazchem Code:** 3YE

### Section 6 - Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

## SAFETY DATA SHEET

Remove all ignition sources. Personal protective equipment should be worn when cleaning up spills. Restrict access to area until completion of cleanup. Stop leak if safe to do so. May be slippery when spilled.

#### Methods and Materials for containment and cleaning up

Contain spill with absorbent material, such as sand, vermiculite or other inert material. For large spills, attempt to disperse the vapour or to direct its flow to a safe location for example by using fog sprays. The vapour is heavier than air, spreads along the ground and distant ignition is possible. Collect and transfer to a labelled container. Dispose of spilled material according to local regulations. Do not flush away residues with water. Allow residues to evaporate or soak up with an appropriate adsorbent material and dispose of safely. Clean area by working from the periphery to the centre of spill or from the edge of the room to the centre.

#### Environmental precautions

Prevent spill entering sewers or waterways.

### Section 7 - Handling and Storage

#### Precautions for Safe Handling

Avoid skin and eye contact and avoid breathing in vapour, mists or sprays. Observe good personal hygiene practices and recommended procedures. Wash thoroughly after handling. Do not smoke or eat whilst handling this product. Remove ignition sources, avoid sparks and earth all equipment.

#### Conditions for Safe Storage

Store in a cool, dry, well-ventilated area. Keep containers tightly closed when not in use. Store away from incompatible materials listed in section 10 including oxidizing agents, acids, combustible materials and sources of ignition. Protect from direct sunlight.

Store in original packaging as approved by manufacturer.
